

Configuring your Web Browser Proxy settings

Please Note: The following settings will affect any other internet connection you use, please keep this page and change them **BACK** when you want to use the internet at another location. (i.e. At home or public internet connections). And then change them back to the La Trobe settings when you are using your computer at La Trobe University.

Internet Explorer

1. Open Internet Explorer
2. Select Tools, then Internet Options
3. Select the Connections tab
4. Click the LAN Settings button
5. Check the Use automatic configuration script
6. Enter:
http://proxy.latrobe.edu.au/proxy.pac
in the Address box
7. Click OK

Mozilla Firefox

1. Open Firefox
2. Select Tools, then Options
3. Select Advanced
4. Select Network
5. Click Settings
6. Select Automatic proxy configuration URL and enter:
http://proxy.latrobe.edu.au/proxy.pac
7. Click OK

Remember to change your proxy setting back to your home settings when using wireless at home.
